PROFESSIONAL SUMMARY

UX/UI Designer with 7+ years of experience across interface design, digital experiences, and visual communication. Experienced in translating business requirements and use cases into intuitive user interfaces, designing complex digital experiences, and creating responsive layouts for web applications and websites. Combines a strong design foundation with hands-on frontend development knowledge in HTML, CSS/SCSS, Bootstrap, and JavaScript, enabling effective collaboration with developers and translating design concepts into interactive web experiences. Skilled in Figma, responsive design, accessibility, and interactive UI design.
